

**PSR Plastics**  
Components to Industry

PSR Plastics specialise in the production of Engineering Plastic Parts and have a modern machine shop containing a comprehensive range of CNC equipment.

## Design & Manufacturing

---

From Routing and Milling to Turning and Profiling, we have the capability to undertake our customers diverse requirements.

In addition to our machining capability we are fully committed in understanding that short lead times are also a critical concern to a large number of our clients, with this in mind we have the flexibility to expedite any orders requiring this priority service.

The quality and origin of our base materials are also of key importance to us at PSR Plastics. We have built long term relationship with many key manufacturers and suppliers who are based in the UK and Europe.

Our many years of experience in plastics is always on hand to offer technical support in answer any questions you may have on design or material selection for your component or application.

## Services

---

CAD Design  
Bespoke Manufacturing  
CNC Routing  
CNC Milling  
CNC Turning  
Cutting Service  
Bending  
Assembly  
Prototyping  
Sample Service  
On Site Evaluation

## Products

---

Bespoke Components	Pulleys
Wear Strips	Sprockets
Wear Bends	Conveyor Rollers
Star Wheels	Cams
Machined Chain & Belt Guides	Sleeves
Wear Pads	Bushes
Scrapers	Guarding

## Materials

---

PE	PVC
POM C	Acrylic
Cast Nylon	PET
PC	Nylon 66
PTFE	

## Info

---

A comprehensive guide to what PSR offer and additional resources are available on our website.

PSR Plastics is a family business, established in 1988 and based in the heart of the East Midlands at their Melton Mowbray facility.

## About us

---

PSR Plastics Ltd is an established company servicing many diverse industries with a broad spectrum of Engineering Plastic Components. We pride ourselves on being able to offer components made from a variety of plastic materials including Polyethylene, Acetal, Nylon, Polycarbonate PTFE and many more. Our modern facilities contain CNC and manual machines capable of providing simple or more complicated finished parts.

The successful philosophy at PSR Plastics is based upon understanding our many customer's needs. Providing quality products within the time constraints of a fast moving market is paramount to our success.

PSR Plastics has built a reputation for reliability and quality over many years. The company is constantly re-investing in it's employees and its capacity and will continue to be a recognised name in the market of engineering plastic components.

Richard Evans  
Managing Director
